

Directions to
LAKWOOD CIVIC AUDITORIUM
14100 Franklin Boulevard
Lakewood, Ohio 44107
216-529-4160

From I-90 Westbound:

Exit Warren Road/Bunts Road Exit.

Make a right onto Bunts. Make a left onto Madison Avenue (You will see the football field).

Make the first right onto a residential side street called Robinwood. Take Robinwood all the way to the school.

Make a right on the service road that runs along the school. The loading docks will be to the left.

Please observe fire lane requirements posted.

TECHNICAL INFORMATION

Bus Parking	Located within 100' of the backstage area. There is NO shore power available.
Truck Parking	In loading area – providing fire lanes are maintained. Overflow parking is across the street from the theater.
Load-in	Ramp off truck, to ground level, ramp into building, onto freight elevator, then onto stage. Load-in doors: A) 9'6" high by 9'5" wide; B) 9'6" high by 11' wide.
Freight Elevator	7' high x 9' deep x 11' wide – 7,000 pound capacity. Located stage right. There is a 4' height difference from the load in elevation onto stage elevation.
House Lights	House lights are controlled stage left.
Power	440 Amp; 3 Phase, 208 volt – located up stage left 300 Amp; 1 Phase, 208 volt – located up stage left
Dressing Rooms	Two dressing rooms with bathrooms. Access to dressing rooms from stage right. Showers are available in the next building.
Production Office	Down stairs – under stage – 2 phone lines – Internet lines Next to Catering – 3 phone lines – Internet lines
Follow Spots	2 HM1 500. Clear-com in house
Barricade	Orchestra pit is normally seated
Sound Level Limits	None. Note that you cannot sound check until after 3 PM.
Stagehands	Non-union
House Fire Curtain	Please note – Nothing may obstruct the fire curtain (7 feet from the down stage edge). You may place monitors; mike stands, upstage or downstage of the curtain, but nothing may block the curtain.

Front of House Position	45 feet from the downstage edge
Stage	Typical proscenium; permanent fixed structure 59' wide x 38' deep by 4' high – curtain Opens to 55'
Apron Depth	5'7"
Stage Left Wing	19'4"
Stage Right Wing	9'8"
Proscenium Opening Height	25'

Soft Goods

Main curtain and valance are dead hung
 4 travelers with borders are counterweighted
 White cyclorama is counterweighted

Rigging

Fly lighting and stack sound

Seven scenery battens, counterweighted
 Five house electric battens, counterweighted

There are two points over the pit, approximately 8' downstage. The beams are spaced as follows:

There are 3 beams stage left. They are 7', 19' and 31' off center.
 There are 3 beams stage right. They are 6', 19' and 31' off center.

The thimble from the rigging steel will not fit over the beam, thus the need for two-ton beam clamps. There is no place to hang audio without obstructing the fire curtain.

*Please note: Due to the fact that the theater is located on a campus, load-in must accommodate the movement of students through the hallways. This only means that every hour, on the hour, load in (i.e. moving cases through the hallways) must cease for a span of 5 minutes. This DOES NOT affect any work in the theater.

The Lakewood Civic Auditorium is an 1800 seat proscenium space well equipped to handle most special event needs. Here are answers to the most asked questions:

1. Opening width 50'5" (main curtain opens to 55')
